Dear Shareholder:

We are pleased to present to shareholders the September 30, 2018 Annual Report for the River Canyon Total Return Bond Fund (the "Fund"), a series of the Advisers Investment Trust. This report contains the results of Fund operations for the year ended September 30, 2018.

We appreciate the trust and confidence you have placed in us by choosing the Fund and its Investment Adviser, River Canyon Fund Management LLC, and we look forward to continuing to serve your investing needs.

Sincerely,

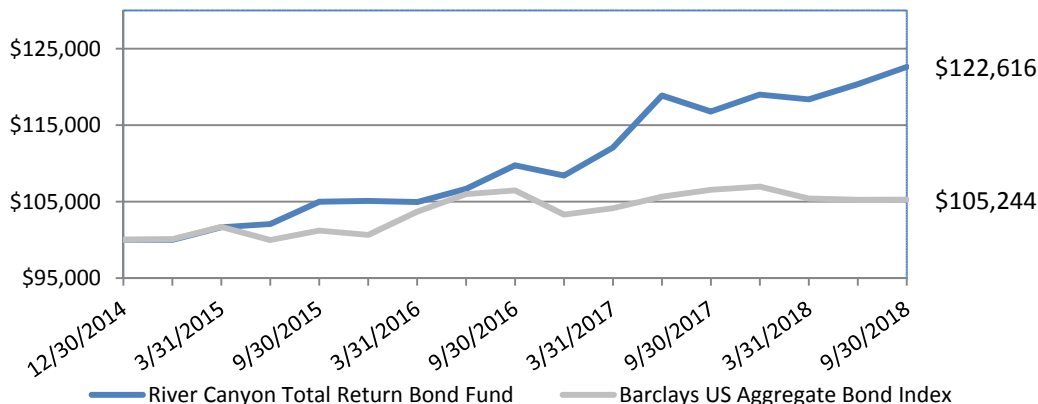

Barbara J. Nelligan  
President  
Advisers Investment Trust

**River Canyon Total Return Bond Fund**

Value of a hypothetical \$100,000 investment in the Fund's Institutional Shares from inception on December 30, 2014 to September 30, 2018

**Average Annual Total Returns as of September 30, 2018**

	One Year Return	3 Year Return	Since Inception Return	Gross Expense Ratio *	Net Expense Ratio *
River Canyon Total Return Bond Fund – Institutional Shares	5.00%	5.32%	5.59%	2.30%	0.72%
Barclays U.S. Aggregate Bond Index	-1.22%	1.31%	1.37%	-	-

Allocation Breakdown as of 9/30/2018	
Non-Agency MBS	43%
Agency MBS Fixed Rate	33%
Agency MBS ARM	19%
Agency CMO	4%
ABS	1%

Data as at September 30, 2018. The Fund's performance reflects the reinvestment of dividends as well as the impact of any transaction costs and the deduction of fees and expenses. The performance does not reflect taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

The inception date of the Fund is December 30, 2014.

\* Expense ratios are per the most recent Fund Prospectus. The Adviser has entered into a contractual expense limitation agreement with respect to the Fund until January 28, 2019.

The performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less

*than their original cost. The Fund's current performance may be lower or higher than the performance data quoted. Investors may obtain performance information current to the most recent month-end, within 7 business days, by calling 800-245-0371 or 312-557-0164.*

*The Fund's benchmark for performance comparison purposes is the Barclays U.S. Aggregate Bond Index. The index is an unmanaged index that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS and CMBS (agency and non-agency). The table reflects the theoretical reinvestment of dividends on securities in the index. The impact of any transaction costs and the deduction of expenses associated with a mutual fund, such as investment management and administration fees, are not reflected in the index calculations. It is not possible to invest directly in an index.*

**Market Commentary (for fiscal year ending September 30, 2018)**

The fiscal year started with positive momentum in risk assets. During the fourth quarter of 2017, Congress passed a sweeping tax reform bill which significantly reduced corporate tax rates and rates on repatriated overseas cash holdings. The passage of the tax bill reinforced the sentiment in risk markets, and except for a brief correction in February 2018, U.S. equity markets delivered strong returns, ending the fiscal year near all-time highs. Interest rates across the yield curve moved steadily higher throughout the fiscal year as the Federal Reserve continued its rate hiking campaign, raising the targeted Fed Funds rate from 1.25% to 2.25% with four 25 basis point hikes over the period. The 10-year U.S. Treasury bond yield increased from 2.33% to 3.05% during the fiscal year.

U.S. economic growth improved from 2.3% at the beginning of the fiscal year to an estimated growth rate of 3.5% at fiscal year-end. Inflation expectations moved steadily higher over the period. Breakeven inflation, the difference between nominal 10-year treasury yields and 10-year inflation linked bond yields, moved from 1.84 to 2.14 over the course of the fiscal year. Trade disputes and the implementation of tariffs dominated headlines during a large portion of the fiscal year, but corporate profit growth, low unemployment and record consumer confidence helped risk assets look through these headlines. Broadly speaking, the market consensus is that the tariffs and trade disputes are likely to create some negative headwinds to ongoing economic growth.

**Fund Insights**

The Fund was conservatively positioned throughout the fiscal year. It navigated the higher rate environment well and posted strong absolute and relative returns:

- Interest income and security selection were the primary positive return drivers
- Non-Agency Senior and Junior residential mortgage-backed securities (“RMBS”) were the top return contributors, benefiting from a healthy economic environment, a scarcity of new issuance, and steady U.S. housing prices
- Agency mortgage-backed securities (“MBS”) experienced positive total returns and contributed to relative performance

**Looking Forward**

We continue to manage a portfolio with a focus on delivering yield premium across a variety of interest rate environments, while managing prepayment, duration, and credit risks. The portfolio remains cautiously positioned against a backdrop of rising interest rates, with 60% of the portfolio allocated to floating rate debt securities. The poor fiscal year performance of the largest structured credit mutual funds underscores the difficulty of generating positive returns in a rising rate environment and highlights the strong performance of RCTIX. Our investment process is unchanged, and we continue to believe that our security level credit analysis, asset size, and experience in the structured product markets allow us to be judicious in the portfolio management of the River Canyon Total Return Bond Fund.

Any investment in the Fund involves significant risk, including the risk of loss of all or a portion of your investment. The results indicated herein include both realized and unrealized gains and losses, and actual results when realized may differ materially from those set forth herein. Total returns include reinvestment of dividends and distributions. Current performance may be lower or higher than the performance data presented. Investment returns and principal value will fluctuate with market conditions. The value of an investment in the Fund, when redeemed, may be worth more or less than its original purchase cost. You should consider the investment objectives, risks, charges and expenses of a mutual fund carefully before investing.

Certain information contained herein constitutes “forward-looking statements”, which can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “target,” “project,” “estimate,” “intend,” “continue” or “believe” or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of an individual investment, an asset class or the Fund may differ materially from those reflected or contemplated in such forward-looking statements. Past performance is not indicative of future results.

**Certain Investment Risks**

It is important to note that the Fund is not guaranteed by the U.S. Government. Fixed income investments involve interest rate risk, issuer credit risk and risk of default, prepayment risk, duration,risk and price volatility risk. Funds investing in bonds can lose their value as interest rates rise, and investors participating in such Funds can suffer a partial or total loss of their principal.

Mortgage-backed and other asset-backed securities involve risks that are different from or more acute than risks associated with other types of debt instruments. For example, rising interest rates tend to extend the duration of fixed-rate MBS, making them more sensitive to changes in interest rates and causing funds investing in such securities (such as the Fund) to exhibit additional volatility. Conversely, declining interest rates may cause borrowers to pay off their mortgages sooner than expected, thereby reducing returns because the Fund may be required to reinvest the return of borrower principal at the lower prevailing interest rate. MBS related to floating rate loans may exhibit greater price volatility than a fixed rate obligation of similar credit quality. With respect to non-agency MBS, there are no direct or indirect government or agency guarantees of payments in pools created by non-governmental issuers. Non-agency MBS also are not subject to the same underwriting requirements for the underlying mortgages that are applicable to those mortgage-related securities that have a government or government-sponsored entity guarantee.

For a more complete list of Fund risks, please see the Prospectus.

\*River Canyon Fund Management LLC (the “Adviser”) has contractually agreed to waive fees and reimburse expenses to the extent that Total Annual Fund Operating Expenses (excluding brokerage costs, interest, taxes, dividend expense on short positions, litigation and indemnification expenses, expenses associated with investments in underlying investment companies, and extraordinary expenses) exceed 0.65% until January 28, 2019.

**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2018**

---

Advisers Investment Trust (the “Trust”) is a Delaware statutory trust operating under a Second Amended and Restated Agreement and Declaration of Trust (the “Trust Agreement”) dated June 21, 2018. The Trust was formerly an Ohio business trust, which commenced operations on December 20, 2011. On March 31, 2017, the Trust was converted to a Delaware statutory trust. As an open-end registered investment company, as defined in Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2013-08, the Trust follows accounting and reporting guidance under FASB Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The Trust Agreement permits the Board of Trustees (the “Trustees” or “Board”) to authorize and issue an unlimited number of shares of beneficial interest, at no par value, in separate series of the Trust. The River Canyon Total Return Bond Fund (the “Fund”) is a series of the Trust, and the Fund’s Institutional Shares class commenced operations on December 30, 2014. Prior to April 6, 2015 shares of the Fund were not registered under the Securities Act of 1933, as amended (the “1933 Act”). During that time, investments in the Fund were made only by individuals or entities that were “accredited investors” within the meaning of Regulation D under the 1933 Act, and shares were issued solely in private placement transactions that did not involve any “public offering” within the meaning of Section 4(a)(2) of the 1933 Act. Effective April 6, 2015, the Fund became publicly available for investment.

The Fund is a non-diversified fund, meaning it may invest in a smaller number of companies than a diversified fund. The investment objective of the Fund is to seek to maximize total return.

Under the Trust’s organizational documents, its officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust and Fund. In addition, in the normal course of business, the Trust enters into contracts with its vendors and others that provide for general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund.

**A. Significant accounting policies related to Investments are as follows:**

**INVESTMENT VALUATION**

Investments are recorded at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuation techniques employed by the Fund, as described below, maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. These inputs are summarized in the following three broad levels:

- Level 1 —quoted prices in active markets for identical assets
- Level 2 —other significant observable inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 —significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For example, certain short-term debt securities may be valued using amortized cost. Generally, amortized cost approximates the current value of a security, but since this valuation is not obtained from a quoted price in an active market, such securities would be reflected as Level 2 in the fair value hierarchy.

Security prices are generally provided by an independent third party pricing service approved by the Trustees as of the close of the New York Stock Exchange, normally at 4:00 pm ET, each business day on which the share price of the Fund is calculated.

Debt and other fixed income securities are generally valued at an evaluated price provided by an independent pricing source approved by the Trustees. To value debt securities, pricing services may use various pricing techniques which take into account appropriate factors such as market activity, yield, quality, coupon rate, maturity, type of issue, trading characteristics, call features, credit ratings and other data, as well as broker quotes. Short-term debt securities of sufficient credit quality that mature within sixty days may be valued at amortized cost, which approximates fair value. In each of these situations, valuations are typically categorized as Level 2 in the fair value hierarchy.

**RIVER CANYON TOTAL RETURN BOND FUND**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2018**

Equity securities listed or traded on a primary exchange are valued at the closing price, if available, or the last sales price on the primary exchange. If no sale occurred on the valuation date, the securities will be valued at the latest quotations as of the close of the primary exchange. Investments in other open-end registered investment companies are valued at their respective net asset value as reported by such companies. In these types of situations, valuations are typically categorized as a Level 1 in the fair value hierarchy.

When the price of a security is not readily available or deemed unreliable (e.g., an approved pricing service does not provide a price, a furnished price is in error, certain stale prices, or an event occurs that materially affects the furnished price), the Fund's Fair Value Committee may in good faith establish a fair value for that security in accordance with procedures established by and under the general supervision of the Trustees.

In the fair value situations as noted above, while the Trust's valuation policy is intended to result in a calculation of the Fund's net asset value that fairly reflects security values as of the time of pricing, the Trust cannot ensure that fair values determined pursuant to these guidelines would accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by the Fund may differ from the value that would be realized if the securities were sold, and these differences could be material to the financial statements. Depending on the source and relative significance of the valuation inputs in these instances, the instruments may be classified as Level 2 or Level 3 in the fair value hierarchy.

The following is a summary of the valuation inputs used as of September 30, 2018 in valuing the Fund's investments based upon the three fair value levels defined above:

Fund	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
<b>River Canyon Total Return Bond Fund</b>				
Mortgage-Backed Securities <sup>(1)</sup>	\$ —	\$ 26,564,600	\$ —	\$ 26,564,600
Short-Term Investments	8,603,945	—	—	8,603,945
Total Investments.....	\$ 8,603,945	\$ 26,564,600	\$ —	\$ 35,168,545

<sup>(1)</sup> See additional categories in the Schedule of Investments.

As of September 30, 2018, there were no Level 3 securities held by the Fund. There were no transfers to or from Level 3 during the year ended September 30, 2018.

**FORWARD COMMITMENTS**

The Fund may contract to purchase securities for a fixed price at a transaction date beyond the customary settlement period (i.e., "when issued," "delayed delivery," "forward commitment," or "TBA transaction") consistent with the Fund's ability to manage its investment portfolio. No interest will be earned by the Fund on such purchases until the securities are delivered, however the market value may change prior to delivery. When the Fund makes a commitment to purchase a security on a forward commitment basis, cash or liquid securities equal to the amount of such Fund's commitments will be reserved for payment of the commitment.

The Fund may enter into TBA sale commitments to help manage portfolio duration, hedge its positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

Unsettled TBA sale (purchase) commitments are valued at the current market value of the underlying securities. The contract is adjusted to market value daily and the change in market value is recorded by the Fund as an unrealized gain or loss. If the TBA sale (purchase) commitment is closed through the acquisition of an offsetting purchase (sale) commitment, the Fund realizes a gain or loss from the sale of the securities based upon the unit price established at the date the commitment was entered.

**INVESTMENT TRANSACTIONS AND INCOME**

Investment transactions are accounted for no later than one business day after trade date. For financial reporting purposes, investments are reported as of the trade date. The Fund determines the gain or loss realized from investment transactions by using an identified cost basis method. Interest income is recognized on an accrual basis and includes, where applicable, the amortization of premium or accretion of discount. Dividend income is recognized on the ex-dividend date.

**EXPENSE ALLOCATIONS**

Expenses directly attributable to a fund in the Trust are charged to that fund, while expenses that are attributable to more than one fund in the Trust are allocated among the applicable funds on a pro-rata basis to each adviser's series of funds based on relative net assets or another reasonable basis.

**DIVIDENDS AND DISTRIBUTIONS**

The Fund intends to distribute substantially all of its net investment income as dividends to shareholders on a quarterly basis. The Fund intends to distribute its net realized long-term capital gains and its net realized short-term capital gains at least once a year.

Distributions from net investment income and from net realized capital gain are determined in accordance with Federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America ("GAAP"). These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (e.g. treatment of certain dividend distributions, gains/losses, return of capital etc.), such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Distributions to shareholders that exceed net investment income and net realized capital gains for tax purposes are reported as return of capital.

**FEDERAL INCOME TAX INFORMATION**

No provision is made for Federal income taxes as the Fund intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), and distribute substantially all of its net investment income and net realized capital gain in accordance with the Code.

As of September 30, 2018, the Fund did not have uncertain tax positions that would require financial statement recognition or disclosure based on an evaluation of all open tax years for all major tax jurisdictions. The Fund's Federal tax returns filed for the tax year ended September 30, 2015, 2016 and 2017 remain subject to examination by the Internal Revenue Service. Interest or penalties incurred, if any, on future unknown, uncertain tax positions taken by the Fund will be recorded as interest expense on the Statement of Operations.

Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

**USE OF ESTIMATES**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

**NEW ACCOUNTING PRONOUNCEMENTS**

On August 28, 2018, the FASB issued ASU 2018-13, "Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement," which amends the fair value measurement disclosure requirements of ASC 820. The amendments of ASU 2018-13 include new, eliminated, and modified disclosure requirements of ASC 820. In addition, the amendments clarify that materiality is an appropriate

consideration of entities when evaluating disclosure requirements. The ASU is effective for all entities for fiscal years beginning after December 15, 2019, including interim periods therein. Early adoption is permitted for any eliminated or modified disclosures upon issuance of this ASU. The Fund has early adopted ASU 2018-13 for these financial statements.

**B. Fees and Transactions with Affiliates and Other Parties**

River Canyon Fund Management LLC (the “Adviser” or “River Canyon”) serves as the investment adviser to the Fund. Under the terms of the Trust’s Investment Advisory Agreement (the “Agreement”) with the Adviser, the Fund paid the Adviser a fee computed and accrued daily and paid monthly at the annual rate of 0.40% of average daily net assets through October 31, 2017. Effective November 1, 2017, the Fund pays the Adviser a fee at the annual rate of 0.65% of average daily net assets. Total fees incurred pursuant to the Agreement are reflected as “Investment advisory” fees on the Statement of Operations.

Foreside Financial Services, LLC (the “Distributor”), formerly BHIL Distributors, LLC, provides distribution services to the Fund pursuant to a distribution agreement with the Trust, on behalf of the Fund. Under its agreement with the Trust, the Distributor acts as an agent of the Trust in connection with the offering of the shares of the Fund on a continuous basis. The Adviser, at its own expense, pays the Distributor an annual \$25,000 fee for these services and reimbursement for certain expenses incurred on behalf of the Fund.

The Northern Trust Company (“Northern Trust”) serves as the administrator, transfer agent, custodian and fund accounting agent for the Fund pursuant to written agreements between the Trust, on behalf of the Fund, and Northern Trust. Through April 1, 2018, the Fund agreed to pay Northern Trust a tiered basis-point fee based on the Fund’s daily net assets, subject to a minimum annual fee of \$125,000 relating to these services. Effective April 2, 2018, the total fee is subject to a minimum annual fee of \$150,000, as well as other charges for additional service activities. Total fees paid to Northern Trust pursuant to these agreements are reflected as “Accounting and Administration” fees on the Statement of Operations. For the year ended September 30, 2018, Northern Trust voluntarily waived expenses of \$12,465.

Foreside Fund Officer Services, LLC (“Foreside”), formerly Foreside Management Services, LLC, provides compliance and financial control services for the Fund pursuant to a written agreement with the Trust, on behalf of the Fund, including providing certain officers to the Fund. The Fund pays Foreside an annual base fee, a basis-point fee based on the Fund’s daily net assets, subject to an overall annual minimum fee of \$150,000 for these services, and reimburses for certain expenses incurred on behalf of the Fund. Total fees paid to Foreside pursuant to these agreements are reflected as “Regulatory and Compliance” fees on the Statement of Operations.

Certain officers and Trustees of the Trust are affiliated with Foreside, Northern Trust, or the Distributor and receive no compensation directly from the Fund for serving in their respective roles. Through March 31, 2018, the Trust paid each Independent Trustee compensation for their services based on an annual retainer of \$80,000 and reimbursement for certain expenses. Effective April 1, 2018, the Trust pays an annual retainer of \$120,000 and reimbursement for certain expenses. If there are more than six meetings in a year, additional meeting fees may apply. For the year ended September 30, 2018, the aggregate Trustee compensation paid by the Trust was \$300,000. The amount of total Trustee compensation and reimbursement of out-of-pocket expenses allocated from the Trust to the Fund is reflected as “Trustees” expenses on the Statement of Operations.

The Adviser has contractually agreed to waive fees or reimburse expenses to the extent necessary to limit total annual fund operating expenses (exclusive of brokerage costs, interest, taxes, dividends, expenses on short positions, litigation and indemnification expenses, expenses associated with investments in underlying investment companies and extraordinary expenses) to 0.65% of the average daily net assets of the Fund until January 28, 2019. If it becomes unnecessary for the Adviser to waive fees or make reimbursements, the Adviser may recapture any of its prior waivers or reimbursements for a period not to exceed three years from the year in which the waiver or reimbursement was made to the extent that such a recapture does not cause the Total Annual Fund Operating Expenses (excluding taxes, extraordinary expenses, expenses associated with investments in underlying investment companies, brokerage costs, interest, taxes, dividends, expenses on short positions, litigation and indemnification expenses) to exceed the applicable expense limitation in effect at the time of repayment or the applicable expense limitation that was in effect at the time of the waiver or reimbursement. The agreement to waive fees and reimburse expenses may be terminated by the Board at any time and will terminate automatically upon termination of the Agreement.

**E. Concentration of Ownership**

A significant portion of the Fund's shares may be held in a limited number of shareholder accounts. To the extent that a shareholder or group of shareholders redeem a significant portion of the shares issued by the Fund, this could have a disruptive impact on the efficient implementation of the Fund's investment strategy.

As of September 30, 2018, substantially all of the shares issued by the Fund were owned by the Adviser or Adviser-related shareholders.

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the shareholders and the Board of Trustees of Advisers Investment Trust

### **Opinion on the Financial Statements and Financial Highlights**

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the River Canyon Total Return Bond Fund (the "Fund"), one of the funds constituting the Advisers Investment Trust (the "Trust"), as of September 30, 2018, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the three years in the period then ended and for the period December 30, 2014 (commencement of operations) to September 30, 2015, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the River Canyon Total Return Bond Fund of the Trust as of September 30, 2018, and the results of its operations, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended and for the period December 30, 2014 (commencement of operations) to September 30, 2015, in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of September 30, 2018, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

**B. Expense Examples**

As a Fund shareholder, you may incur two types of costs: (1) transaction costs, and (2) ongoing costs, including management fees and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the examples are useful in comparing ongoing costs only and will not help you determine the relative total cost of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

The examples below are based on an investment of \$1,000 invested at April 1, 2018 and held for the entire period through September 30, 2018.

The **Actual Expense Example** below provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled “Expenses Paid” to estimate the expenses you paid on your account during this period.

The **Hypothetical Expense Example** below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

	Expense Ratio	Beginning Account Value 4/1/2018	Ending Account Value 9/30/2018	*Expenses Paid 4/1/18-9/30/18
Actual .....	0.65%	\$ 1,000.00	\$ 1,036.00	\$ 3.32
Hypothetical.....	0.65%	\$ 1,000.00	\$ 1,021.81	\$ 3.29

\* Expenses are calculated using the annualized expense ratio (as disclosed in the table), multiplied by the average account value for the period, multiplied by the number of days in the most recent half fiscal year (183), and divided by the number of days in the current year (365).

The Fund recognizes and respects the privacy concerns and expectations of our customers. We are committed to maintaining the privacy and security of the personal confidential information we collect about you. We provide this notice so that you will know what kinds of information we collect and the circumstances in which that information may be disclosed to third parties.

### **INFORMATION WE COLLECT AND SOURCES OF INFORMATION**

We collect nonpublic personal information about our customers from the following sources:

- Account Applications and other forms, which may include a customer's name, address, social security number, and information about a customer's investment goals and risk tolerance;
- Account History, including information about the transactions and balances in a customer's account(s); and
- Correspondences including written, telephonic or electronic between a customer and the Funds or service providers to the Funds.

### **INFORMATION WE SHARE WITH SERVICE PROVIDERS**

The Fund may disclose all non-public personal information we collect, as described above, to companies that perform services on our behalf, including those that assist us in responding to inquiries, processing transactions, preparing and mailing account statements and other forms of shareholder services, provided they use the information solely for these purposes and they enter into a confidentiality agreement regarding the information. The Fund also may disclose non-public personal information as otherwise permitted by law.

### **SAFEGUARDING CUSTOMER INFORMATION**

We will safeguard, according to federal standards of security and confidentiality, any non-public personal information our customers share with us.

We require service providers to the Fund:

- to maintain policies and procedures designed to assure only appropriate access to, and use of information about customers of the Funds; and
- to maintain physical, electronic and procedural safeguards that comply with federal standards to guard nonpublic personal information of customers of the Funds.

We will adhere to the policies and practices described in this notice regardless of whether you are a current or former shareholder of the Fund.
